[Despatch Abstract.]

Live stock - Milch goats in South Kanara dist - Improvement Scheme - Continuance - Sanction ordered

ANIMAL HUSBANDRY DEPARTMENT,
Triplicane P.O., Madras,
Dated the 16th February 1953.

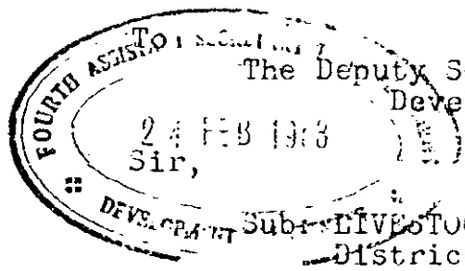
Roc.No.5563-VI/51.

From

Sri V.R.Rajagopalan,GMVC.,Dip.,Bact.,(Manchester),
Director of Animal Husbandry, Madras.

To

The Deputy Secretary to Government,
Development Department, Madras.



Sir,

21298

Sub:- LIVESTOCK - Milch Goats - South Kanara District - Improvement of - Scheme - Extension - Proposal.

Ref: G.O.Ms.No.61 Development Department dated 5-1-1950.

*****

Government in their Order cited above sanctioned a scheme for the purchase of 12 bucks of good milk strain from Tellicherry and Cannanore and station them at stud with leading interested milk goat owners in South Kanara District and pay a premium of Rs.5/- per goat per mensem. The scheme was sanctioned for a period of two years from the date of introduction.

The scheme was started in March 1951, and will come to a close in March 1953.

12 Bucks were purchased and distributed under the scheme, of which two died, one on 25-3-1952 and the other on 31-10-1952, and ten are now surviving. They performed about 1000 services so far and about 421 progeny are born to them, of which 224 are females. Judging from the physical characteristics, it is reported that the progeny will be better performers than their mothers, but this can only be tested after some time more as they have not yet come to production. The bucks under the scheme are also reported to be in good condition and they are capable of doing effective services for one more year. In order that any tangible results are obtained from the scheme, it is essential that the scheme should be put to work for a period of at least six to eight years as two years in Livestock Improvement work is too short a period to show any result.

I, therefore suggest the following proposal for the continuance of the scheme.

(1) To allow the ten bucks already in the scheme to continue for one more year on payment of premium at Rs.5/- per mensem per goat.

(2) To purchase and distribute six more bucks where the number of progeny born to old bucks is great on payment of premium for three years at Rs.5/- each per goat per mensem.

The financial implications in the proposals are

furnished .....

SUB: LIVESTOCK - Milch Goats in South Kanara District - Improvement - Scheme for continuance - Sanction requested.

REF: From the D.A.H. Roc.No.5563-II/51 D/16-2-1953.

...

In August 1949, the ~~Provincial~~ Livestock Improvement Board recommended the introduction of a scheme for the improvement of Milch Goats in South Kanara District. The scheme provided for the purchase of 12 bucks at Govt. cost from Tellicherry and Cannancre and stationing them at stud in four centres in South Kanara district with leading interested milk goat owners, and the payment of premium of Rs.5 per month per goat to the keepers towards ~~the~~ maintenance in addition to the collection of service fees of Re.one per service. The Govt. accepted the recommendation of the A.L.I. Board and directed that the scheme be put in operation in the year 1950 and it be continued for a period of 2 years from the date of introduction. Sanction was accordingly accorded to a non-recurring expenditure of Rs-2,400 and an annual recurring expenditure of Rs-1,400 for a period of two years as detailed in G.O. Ms.No.61 dated 5-1-50.

2. In his letter on p.1 c.f. the D.A.H. has stated that the above scheme was started in March 1951 and the sanction is due to expire in March 1953. He has further stated that 12 Bucks were purchased and distributed under the scheme of which two died on 25-3-52 and 31-10-52 respectively and the remaining 10 are surviving. They are reported to have performed 1000 services and about 421 progeny are born to them of which 224 are females. It is anticipated that the progeny will be better performers and this can be tested only after sometime when they come to maturity. All the bucks are reported to be in good condition and the D.A.H is of the view that 2 years for the working on Livestock Improvement scheme is too short and that in order to obtain tangible results the scheme should be put to work for a period of

atleast six to eight years. He has therefore suggested.

(i) to allow the 10 bucks already in the scheme to continue for one more year on a payment of premium of Rs.5 per mensem per goat.

(ii) to purchase six more bucks of proven quality and distribute where the number of progeny born to old bucks is great and payment of premium for three years at Rs.5/-each per goat per mensem.

The financial implication is estimated at Rs.900 non-recurring and Rs.1680 recurring as detailed on p.2 c.f. or a total of Rs.2580/- for three years

In the circumstances explained by the D.A.H. it is for consideration whether the proposal of the D.A.H. may be accepted and

(i) whether the 10 bucks already in the scheme may be allowed to continue for one more year on a payment of premium of Rs.5 p.m. per goat and

(ii) whether sanction may be accorded to purchase six more bucks and distribute them and premium paid for their maintenance of Rs.5 each per goat per mensem for a period of 3 years.

The D.A.H. has submitted the following proposals for the sanction of Government:-

(1) The continuance of the 10 bucks purchased under the sanction ordered in G.O.No.61 Development, dated 5-1-1950, for one more year on a payment of premium of Rs. 5/- for mensem per goat; and

(2) the purchase of 6 more bucks of proven quality and distribute where the number of progeny born to old bucks is great and payment of a premium for three years at Rs. 5/- each per goat

per mensem.

The cost to Government will be Rs. 1,680/- recurring and Rs. 900/- non-recurring for 3 years The D.A.H has stated that out of the 12 bucks sanctioned in the G.O. cited, two died on the 25th March 1952 and the 31st October 1952, that the total number of services performed by all the bucks so far is 1000 and that about 421 progeny are born to them of which 224 are females He has also stated that it is essential that the scheme should be put to work for a period of atleast 6 to 8 years in Livestock Improvement work to show any result and that therefore the above proposals may be sanctioned. Development support the proposals of the D.A.H. Finance may also agree.
